Subject: Media regulations.....

Dear FCC:

Excuse me! I'm totally confused here! The FCC recently changed the ownership limits that media companies can own from 35% to 45%. How is that suppose to help me? How is allowing FEWER companies to own MORE TV stations and/or other media outlets suppose to help me? What you are essentially allowing is the bulk of local programming to be owned and controlled by a few "lucky" entities. Despite what you might think, the majority of people rely on local programming. Cable/satellite is great but not everyone can afford it. This is especially true of the less wealthy portion of our population. I can tell you from experience that there are LARGE sections of the city that do NOT have subscription services. So for a large slice of the population that means that there are fewer choices for news and information. And this is suppose to be a good thing?

Have you taken a look at Los Angeles lately? We're already down a bad path here. Channel 2 and Channel 9 are owned by Viacom. Channel 4 is owned by GE. Channel 5 is owned by Tribune, which also owns the L.A. Times--the only major newspaper in the city. Channel 7 is owned by Disney. Channel 11 and channel 13 are owned by News Corp. And this was BEFORE the revision to the media ownership guidelines. I fail to see how allowing a few of these companies to consolidate even MORE of L.A. is going to benefit me? By allowing fewer and fewer corporations to control the vast majority of public programming we are seeing LESS of a voice rather than more. I can tell you that from what I see these days, it is already happening. There is very little independent voice and the channels that are owned by the same companies are looking and sounding more and more alike. I compare stations that are owned by the same companies and I see the SAME stories on both channels. It a little disconcerting to see a broadcaster doing the news on channel 9 at 9:00pm and then seeing that same person doing the 11:00pm news on channel 2.....cookie cutter braodcasting. And this is suppose to be a good thing?

I am against this ruling and I am NOT going to stay silent. Is it just a coincidence that the public comment period was 6 or 8 weeks or however long it was but NO ONE heard anything on any type of media outlet until last week? I think not! And this is suppose to be a good thing?

Subject: Please Act to Stop Media Monopolies

Senator John McCain
U.S. Senate
241 Russell Senate Office Building
Washington, DC 20510

Dear Senator McCain,

I urge you to tell the Federal Communications Commission (FCC) not to weaken the rules that help preserve competition and diversity among the owners of America's newspapers and radio and TV stations.

As you know, the FCC is reviewing rules currently for media ownership and is likely to allow big corporations to dominate ownership of media in a particular city or town. If that happens, one company may be allowed to own the local newspaper, several TV and radio stations and the cable TV system in the same community. There would be fewer owners of networks, stations and newspapers nationwide.

Media ownership would be concentrated among fewer companies and the public's ability to have open, informed discussion with a wide variety of viewpoints would be compromised. Plus, it likely would result in higher costs for businesses that advertise in local media, and those costs likely would be passed onto consumers.

The FCC is expected to vote on whether to change the rules on June 2. The public comments submitted to the FCC by individuals have been opposed to media consolidation overwhelmingly. Americans understand that the public interest is not being served by deregulation that reduces competition.

Please tell the FCC to reinstate its traditional media ownership rules for the sake of competition and democracy.

Thank you.

Sincerely,
